

INSPIRING STORIES OF EYE DONATION

Case Study III

Life is beautiful for anyone and even more beautiful when shared with our dear ones.

This is the story of one such loving couple. Their life was disaster struck when a lorry hit the bike that the couple was riding and the husband was dead on spot. The first thing that the wife had done upon realizing that her husband was dead, was to call

Swetcha Gora Eye Bank to donate his eyes. It is

only after this that she has informed the police.

Swetcha Gora Eye Bank's team of doctors was

the first ones to reach the spot of the accident.

The lady has shared that she has not delayed

informing Swetcha Gora Eye Bank so that her husband's eyes could be transplanted

to two other people and she could see in them her husband live a second time. Though

caught in great grief she had the integrity of not being carried away by the life's thrust

and was able to be exemplary to people around by showing how to derive strength

even in adversity through one's noble thoughts.
